	BLITZ GREEN GROUP 1	This brand NEW variety of Group 1 green flowers has proven itself to be pure breeding. There is a lot we can do with group 1 Greens as far as breeding potential goes. I have always said that flowers with persistent green on the reverse of the petals are the best breeders. Some of the clones below do fade slightly as the flower matures but the reverse green is persistent. The ultimate goal for this variety is to produce green and yellow versicolours.				
9	BLITZ HIM X BLITZ BABE	PURE BLITZ GREEN GENETICS FROM TOP SELECTED PLANTS.	5	3	R 400.00
